For example, we may log your computer or mobile device operating system name and version, manufacturer and model, browser type, browser language, screen resolution, the website you visited before browsing to our Sites, pages you viewed, how long you spent on a page, and access times and information about your use of, and actions on, our Sites. Cookies and Similar Technologies

What are cookies?

We may collect information using “cookies.” Cookies are small data files stored on the hard drive of your computer or mobile device by a website. We may use both session cookies (which expire once you close your web browser) and persistent cookies (which stay on your computer or mobile device until you delete them) to provide you with a more personal and interactive experience on our Sites.

Cookies we use

We use two broad categories of cookies: (1) first-party cookies, served directly by us to your computer or mobile device, which we use to recognize your computer or mobile device when it revisits our Sites; and (2) third-party cookies, which are served by service providers on our Sites, and can be used by such service providers to recognise your computer or mobile device when visiting other websites.

Our Sites use the following types of cookies for the purposes set out below:

Type of cookie	Purpose
<i>Essential Cookies</i>	These cookies are essential to provide you with services available through our Sites and to enable you to use some of their features. Without these cookies, the services that you request may not be possible to provide. We only use these cookies to provide you with those services.
<i>Functionality Cookies</i>	These cookies allow our Sites to remember choices you make when you use our Sites. The purpose of these cookies is to provide you with a more

	personal experience and to avoid you from having to re-select your preferences every time you visit our Sites.
<i>Analytics and Performance Cookies</i>	<p>These cookies are used to collect information about traffic to our Sites and how users use our Sites. The information gathered may include the number of visitors to our Sites, the websites that referred them to our Sites, the pages they visited on our Sites, what time of day they visited our Sites, whether they have visited our Sites before, and other similar information. We use this information to help operate our Sites more efficiently, to gather demographic information and to monitor the level of activity on our Sites.</p> <p>We use Google Analytics for this purpose. Google Analytics uses its own cookies and is only used to improve how our Sites work. You can find out more information about Google Analytics, cookies, and about how Google protects your data on the Google website. You can prevent the use of Google Analytics relating to your use of our Sites by downloading and installing a browser plugin.</p>

Disabling cookies

If you do not accept our cookies, you may experience some inconvenience in your use of our Sites. For example, we may not be able to recognize your computer or mobile device and you may need to log in every time you visit our Sites. Your choices for managing use of cookies include:

- **Blocking cookies in your browser.** Most browsers let you remove or reject cookies. To do this, follow the instructions in your browser settings. Many browsers accept cookies by default until you change your settings. For more information about cookies, including how to see what cookies have been set on your device and how to manage and delete them, visit www.allaboutcookies.org.
- **Blocking advertising ID use in your mobile settings.** Your mobile device settings may provide functionality to limit use of the advertising ID associated with your mobile device for interest-based advertising purposes.
- **Advertising industry opt-out tools.** You can also use these opt-out options to limit use of your information for interest-based advertising by participating companies:
 - Digital advertising Alliance: <http://optout.aboutads.info>
 - Network Advertising Initiative: <http://optout.networkadvertising.org/?c=1>

A link to a third-party website or digital service does not imply that Intercept endorses it, or the quality or accuracy of information presented on it. If you decide to visit a third-party website or service, you are subject to its privacy practices and not this Privacy Policy. We encourage you to carefully read the privacy policy or statement and other legal notices of each website or service that you visit.

Flash Technology

We may use Flash cookies (which are also known as Flash Local Shared Object (“LSOs”)) on our Sites to collect and store information about your use of our Sites. Unlike other cookies, Flash cookies cannot be removed or rejected via your browser settings. If you do not want Flash cookies stored on your computer or mobile device, you can adjust the settings of your Flash player to block Flash LSO storage using the tools contained in the Website Storage Settings Panel on the Adobe Flash Player website. You can also control Flash LSOs by going to the Global Storage Settings Panel at the Adobe Flash Player website and following the instructions. Please note that setting the Flash Player to restrict or limit acceptance of Flash LSOs may reduce or impede the functionality of some Flash applications, including, potentially, Flash applications used in connection with our Sites.

Pixel tags

We may also use pixel tags (which are also known as web beacons and clear GIFs) on our Sites to track the actions of users on our Sites. Unlike cookies, which are stored on the hard drive of your computer or mobile device by a website, pixel tags are embedded invisibly on webpages. Pixel tags measure the success of our marketing campaigns and compile statistics about usage of the Sites, so that we can manage our content more effectively. The information we collect using pixel tags is not linked to our users’ personal data.
